Frontend Developer - Remote

P19 GmbH is a dynamic and innovative company specializing in generative AI solutions for businesses. We offer KI Cockpit, a comprehensive platform designed to simplify and streamline the integration of generative AI into various workflows. KI Cockpit empowers businesses to leverage the full potential of AI, regardless of their technical expertise, through features such as: a prompt library for automating tasks, Chat-with-your-data for integrating proprietary knowledge, access to multiple leading AI models, data privacy and security features, a project workspace, and an intuitive media studio.

Our mission is to make generative AI accessible and practical for every business, driving efficiency, productivity, and innovation.

Responsibilities:

- Develop and maintain modern, scalable web applications using React.js and TypeScript.
- Collaborate closely with designers to translate UI/UX mockups into responsive, user-friendly interfaces.
- Ensure a high standard of visual and functional quality, with a strong focus on usability and accessibility.
- Integrate and consume RESTful APIs to deliver dynamic, data-driven features.
- Participate in code reviews.

Requirements:

- Strong proficiency in JavaScript and TypeScript.
- Proven experience building complex interfaces with React.js.
- Solid understanding of UI/UX principles, with the ability to implement visually appealing and accessible designs.
- Familiarity with consuming and integrating RESTful APIs.
- Experience with Git and modern development workflows, including CI/CD pipelines.
- Ability to work independently in a fully remote environment, with strong communication skills.

Nice to Have:

- Experience designing or building interfaces for AI-driven products or platforms.
- Familiarity with state management libraries (e.g., Redux, Zustand).
- Understanding of accessibility standards and best practices.

What We Offer:

- Startup Spirit: Enjoy short decision paths, open ears, and a team passionate about ideas.
- Growth: Grow not only your code but also your personal development with us.
- Flexible Structures: Your ideas matter – make an impact with us!
- A Great Product: Work on something that truly makes a difference – and be at the heart of it.

How to Apply: If you are passionate about technology (as we are) and meet the above requirements, we would love to hear from you!
Applications can be sent here: hello@p19gmbh.de
